Brand: SIMON

Reference: SIMON 46601000-130

Customizable in-table kit with 2-opening cover and brushes, 2 Schuko sockets and 10 empty elements, white Simon 400. Electrical systems in homes and businesses are safer and more durable thanks to the customizable in-table kit with a two-opening cover and brushes, two Schuko socket bases, and ten empty elements in white from the Simon 400 range. This device features a current rating of 16A and a voltage of 250 V, offering high fire safety due to its design: painted steel enclosure, anodized aluminum profile, covers and fasteners made of halogen-free self-extinguishing thermoplastic. Among its key features are a Wieland® gst18i figure connector with three male air poles and a 22 cm pigtail, an insulation resistance of >5 MO at 500 V, and a dielectric strength of 2000 V at 50Hz for one minute without perforation or tracking. Suitable for furniture integration; to complete the installation, it must be combined with the functions of the Simon 400 series.
