Description

Requires auxiliary device of each blind manufacturer.

This mechanism is functional for the **BJC Iris** and **BJC Mega** series and its characteristics are:

- The space interior of the embedding boxes wider and more manageable. The tighter size of the mechanism allows maximum use of the inside of the wallbox
- The interruption mechanisms have a resistance of 16A
- Quality frames without aggressive angles and for a perfect fit of the frames
- Position marks on the racks to facilitate installation
- Automatic terminals for faster installation
- Ventilation windows that prevent the heating of the contacts
