Description

The NWS-2016-21 hexagonal socket, with a 3/8-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in demanding applications. Made from forged, oil-treated chrome-vanadium steel, this socket ensures superior durability and strength, ideal for mechanical and maintenance work. Its hexagonal design allows for a firm and secure grip, minimizing the risk of slippage during use. Additionally, it features a two-tone multi-layer insulation, with a red exterior and a yellow interior, providing clear visual identification and added protection against heat and corrosion.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 3/8 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for optimal grip
- **Insulation:** Two-tone multi-layer (red exterior, yellow interior)
- **Resistance:** High durability and corrosion resistance
- **Use:** Ideal for mechanical and maintenance work
- **Protection:** Insulation that protects against heat
- **Identification:** Colors for easy location
- **Compatibility:** Compatible with various 3/8 inch tools

Specifications

EAN	4003758201688
Manufacturer	NWS
Weight (kg)	0,1200
