Description

Simon 100 | Front kit 2 elements with 2 bases plug schuko matte white 10020202-230

Simon 100 has a multitude of kits available for faster installation of the mechanism.

Simon 100 now in new colors

As a novelty **Simon 100** incorporates new colors to its catalog.

Of those already available white and gloss black, matt black and white are added. Two new possibilities for your electrical installation projects.

More information about the Simon 100 series

Simon 100 was born with the purpose of simplifying people's lives.

Your The main feature is usability, since it is designed to make it easier for users to interact with it. It is a revolutionary line in terms of usability, aesthetic and technical innovation as it is the first interface with a push operation to be used by hand.

Its horizontal keys with a push operation allow a surface of maximum interaction, always of the same size and with the same drive. In addition, the matrix layout of the keys is more intuitive and easy to remember. Also, the **Simon 100** kits group functions in a minimum way for each room so that users can cover all their needs under a clean aesthetic without lines.
