Capacitor for LED EDM Bulb

Brand: EDM

Reference: STK 99891

Capacitor for EDM LED Bulb

- Capacitor designed specifically for EDM brand LED bulbs.
- Improves energy efficiency and prolongs life bulb life.
- Easy to install and compatible with different models of LED bulbs.
- Capacity of 10uF and voltage of 250V.
- Compact dimensions for adapt to small spaces.

Description

The EDM LED Bulb Capacitor is an essential component to guarantee the correct functioning of LED bulbs. This capacitor helps stabilize the electric current and protect the bulb from possible voltage spikes, thus prolonging its useful life and ensuring optimal performance.

- Capacitor for LED bulb
- Helps stabilize electrical current
- Protects the bulb from voltage spikes
- Prolongs the life of the bulb
- Ensures optimal performance

Specifications

Energy classification	F
Cri (Ra)	80
EAN	8425998998917
Manufacturer	EDM
Country of origin	India
Weight (kg)	0, 004
Protection	IP20

Adjustable	No
Estimated life (h)	25000
