Description

Hermetic Glass Container

- Measure: 23x16.5x 8.5 (alt) cm.
 - Capacity: 1850 ml.
 - Made of borosilicate glass, more resistant to temperature changes than conventional glass , being a non-porous material, it does not transfer harmful substances. Hygienic and easy to clean (the rubber lid can be removed)
 - Hermetic containers for better conservation and transport without spills, it does not retain the smell or taste of food previously contained. The lids have a system of 4 locking closures, they are also made of injected silicone that adheres to the glass, isolating food from germs and external odors and favoring its perfect conservation.
 - Stackable, space reduction. Stack only with the lid on.
 - Suitable for freezer, refrigerator, dishwasher, oven, microwave (as long as it is not closed, the lids must rest on the container allowing air to circulate inside it. Lids are not suitable for oven or grill)
 - The lid cannot be placed in the oven.
 - The glass does not contain Bisphenol A (BPA), a substance that is found in most plastics. The Food and Drug Administration (FDA) recommends avoiding the consumption of food heated in plastic containers in the microwave.
 - Article also known as lunch boxes, tupperware, tupperware, tupperware, tupperware, food container, container, lunch box , glass tupperware, glass tupperware, BPA-free tupperware.
- Article compatible with the Isothermal Bag With 4 Hermetic Plastic Containers of reference 05025050.
