Description

Multiple socket with 3-socket French plug system and 1 meter long cable. This base is ideal for connecting various electrical devices safely and efficiently in homes, offices and any place that needs a power solution.

Main technical characteristics:

- Plug type: French, compatible with most plugs and electrical devices.
- Number of sockets: 3, capable of connecting several devices at the same time.
- Maximum power supported: 3680W, which allows you to use high power devices without worrying about overloading the base.
- Cable: H05VV-F 3x1.5mm, a strong and durable cable that offers great electrical conductivity.
- Colour: white, a neutral color that adapts to any style of decoration.
- Cable length: 1 meter, a suitable length to place the base anywhere in the room.
- Side VT: Yes, with a side ground connection for greater electrical safety.
- Breaker A: no, to avoid power consumption in stand-by mode.
- Protection for children: yes, to avoid electrical accidents at home.
- Amps: 16A, one current suitable for most devices.
- Voltage: 250V, compatible with most voltages in Europe.

With its compact and functional design, this multi-socket is the ideal solution for connecting various electrical devices safely and efficiently in any home or office. In addition, its child protection and its strong and durable cable make it a safe and long-lasting option for any user.

Specifications

Colour	White
EAN	8433373024861
Manufacturer	GSC
# Elements	3 elementos
Weight (kg)	0,2
Maximum power (W)	3680W
Cable cross-section (mm²)	1
