Description

Corona HSS Electromagnetic Drill 14ø L30mm

The Corona HSS electromagnetic drill is a high quality and precision tool for drilling metal materials quickly and efficiently. With a diameter of 14 mm and a length of 30 mm, this drill is ideal for making clean and precise holes in different types of surfaces. Its electromagnetic design guarantees a safe and stable hold during the drilling process, avoiding slipping or unwanted movements. In addition, its high speed steel (HSS) construction ensures long life and optimal performance in each use.
