Product sheet

REFLEX 25A 3P automatic switch with TI24 protection and compact design.

Brand: SCHNEIDER

Reference: IMPO A9C62325

The REFLEX iC60N TI24 25A 3P C is a three-phase circuit breaker designed to protect electrical circuits. With a rated current of 25A, it offers safety and reliability in electrical installations, ensuring efficient and safe operation in various applications.

Description

The REFLEX iC60N TI24 25A 3P C is a high-quality circuit breaker designed to provide effective protection in electrical installations. This device is ideal for residential and industrial applications, ensuring safe and reliable operation. Its compact design allows for easy integration into electrical panels, while its advanced technology ensures a rapid response to overloads and short circuits. With a rated current capacity of 25A and a three-pole system, this circuit breaker is perfect for managing power distribution in three-phase circuits.

- **Model:** REFLEX iC60N TI24 25A 3P C
- **Type:** Circuit breaker
- **Rated current:** 25A
- **Poles:** 3P (three poles)
- **Rated voltage:** 400V
- **Tripping curve:** C
- **Protection:** Overload and short circuit
- **Dimensions:** Compact for easy installation
- **Certifications:** Complies with international standards
- **Applications:** Residential and industrial

Specifications

Rated current (A)	25
EAN	3606480455650
Manufacturer	Schneider
No. of poles	3P
Reference	SCHNEIDER A9C62325
