Rechargeable Hand Fan with Semiconductor Cooler

Brand: NK

Reference: EDM 33101

The rechargeable hand fan with semiconductor cooler is a portable device designed to provide comfort and freshness in various situations. With a compact design of 5.8 x 5.7 x 16.5 cm and made of ABS, this fan has a total power of 10 W, which breaks down into 6.5 W for the fan operation and 3.5 W for the cooler. Its 3000 mAh battery allows for a runtime that varies between 1 and 5 hours, depending on the selected speed, which is adjustable between 0 and 120. Additionally, it includes an LED screen that indicates the speed and battery level, making it easy to use. The on/off button allows for simple control, while the cooling button activates the cold plate, providing additional relief on hot days. The fan includes a USB-C cable for charging, making it even more convenient for the user.

Description

The rechargeable hand fan with semiconductor cooler is an innovative device designed to offer a portable and efficient cooling solution. This fan combines the functionality of a conventional fan with semiconductor cooling technology, allowing users to enjoy a cool breeze anywhere. Its compact and lightweight design makes it ideal for travel, outdoor activities, or simply for use at home. With a total power of 10 W, this fan is capable of providing adequate airflow to maintain comfort in various weather conditions.Technical FeaturesTotal power: 10 W (6.5 W fan + 3.5 W cooling)Battery: 3000 mAhRuntime: between 1 and 5 hoursAdjustable speed: between 0 and 120Dimensions: ø5.8 x 5.7 x 16.5 cmMaterial: ABSConnections: USB-CThis fan offers multiple benefits, including its portability, allowing users to take it anywhere. Its semiconductor cooling capability provides additional relief on hot days, enhancing the user experience in situations where heat can be uncomfortable. Additionally, the LED screen that indicates speed and battery level allows for more precise and comfortable control of the device.The applications of this fan are diverse. It is ideal for personal use indoors and outdoors, such as picnics, outings, travel, or even in the office. Its ergonomic design and functionality make it a useful tool for those who spend time outdoors or need quick relief from heat in enclosed spaces. It is also suitable for sporting events, fairs, and other activities where immediate cooling is required.The installation and maintenance of this fan are straightforward. To charge it, simply connect the USB-C cable to a power

source. The operation of the device is intuitive, thanks to its control buttons that allow you to turn it on, turn it off, and adjust the speed with ease.
