Description

Carbon Steel Pruning Shears with 20cm Blade Discover the essential tool for your gardening tasks: the Carbon Steel Pruning Shears with 20cm Blade. Designed to offer exceptional performance, this shear combines robustness and precision, becoming the perfect ally for the care of your plants and shrubs. Its forged steel construction ensures a resistant structure, capable of withstanding intensive use without compromising its integrity. The carbon blade, known for its high durability, provides clean and precise cuts, especially in green woods. This feature is essential to maintain the health of your plants, as it minimizes damage during the pruning process. With a total length of 205 mm and a 60 mm blade, this shear is ideal for accessing difficult areas and making detailed cuts. The ergonomic design of the handle is another of the strong points of this pruning shears. It offers a comfortable and secure grip, allowing for prolonged use without causing hand fatigue. This is especially beneficial for those who spend long hours in the garden, as it makes work easier and improves the user experience. In addition, it has a practical locking mechanism that allows the shears to be kept closed when not in use. This not only

makes storage easier, but also ensures safety by preventing accidental opening. The curved blade is specially designed to work with green woods, ensuring an efficient and precise cut. Total length: 205 mm Blade length: 60 mm Special curved blade for green woods Ergonomic handle for optimal grip Mechanism to keep the scissors closed Robust design and forged steel body Highly durable carbon blade With the 20cm Carbon Steel Pruning Shears with Blade, every cut is a guarantee of quality and efficiency.

Specifications

High	00, 8
