Description

The Simplex stand-up rubber mallet with an 80 mm diameter is designed for industrial applications that require resistance and durability in harsh environments. Its rubber material construction provides excellent impact absorption, making it ideal for operations that need robust and reliable tools.

Technical Features

- Material: Rubber
- Height: 80 mm

This mallet offers superior technical performance in industrial environments thanks to its ergonomic design and resistant materials. It is especially useful for tasks that require controlled impact and extended durability.

Its installation is simple and does not require special tools or complex processes. It integrates easily into existing systems without the need for additional modifications, facilitating its use in various work environments.

Specifications

High	8.0
Diameter	80
EAN	4030618312390

Manufacturer	Halder
Material	Goma
