Description

The SUMIP 67022 round junction box is the ideal solution for recessed splices in electrical installations, thanks to its 80mm diameter that makes it perfect for this type of application. Made from high-quality materials, it guarantees a safe and durable installation, resistant to impacts and humidity.

Its design has been thought out to facilitate access to the connection and maintenance of cables, which makes it a practical and functional option. In addition, its pressure system allows for quick and easy assembly, saving time and effort during installation.

With the SUMIP 67022 round junction box, you can be sure that your electrical connections will be efficiently and reliably protected. Its robust and resistant design guarantees optimal performance over time, without compromising the safety of your installations.

Don't miss the opportunity to purchase this high-quality junction box, which will give you the peace of mind and efficiency you need in your electrical projects. Get yours today!

Specifications

Colour	Black, White
EAN	8422666753113
