Description

The low-tank cistern flusher with double button and cable, model 8806, is the perfect solution to optimize water consumption in your home. With the possibility of graduating the emptying according to your needs, this flusher offers a total flush adjustable between 4.4 and 6 liters, as well as a partial flush adjustable between 1.5 and 3.8 liters.

Its functional and adaptable design makes it a versatile option for any type of bathroom. With this flusher, you can choose between a partial flush for small needs or a total flush for a complete emptying, which will allow you to save water and reduce your consumption efficiently.

In addition, its double button makes it easy to use and its cable guarantees long durability, ensuring optimal operation over time. With the low-tank cistern flusher model 8806, you can enjoy a quality product that adapts to your needs and helps you take care of the environment at the same time.
