Description

The Pack with 10 Blue Bird 4mm Elbows is ideal for distributing the secondary pipe efficiently in the corners of the land. These 4mm connection elbows allow a microtube branch to be removed at a 90° angle from the main pipe, as well as to connect two microtube sections with a 90° angle. Made of polypropylene with anti-UV treatment, they guarantee durability and weather resistance.

- Pack with 10 4mm elbows
- 4mm connection
- Allows take out a branch of microtube with a 90° angle
- Allows you to connect two sections of microtube with a 90° angle
- Recommended to distribute the secondary pipe in the corners of the land
