Description

The Pack with 25 4mm Blue Bird Elbows is ideal for distributing the secondary pipe efficiently in the corners of the land. These 4mm connection elbows allow a branch of microtube to be removed at a 90° angle from the main pipe, as well as to connect two sections of microtube with the same angle. Made of polypropylene with anti-UV treatment, they guarantee durability and weather resistance.

- Pack with 25 4mm connection elbows
- Allows you to remove a microtube branch with an angle of 90°
- Allows two sections of microtube to be connected at a 90° angle
- Recommended for distributing the secondary pipe in the corners of the field
- Material: polypropylene
- Anti UV treatment for greater durability
