Description

The Super Ego Manual Irrigation Programmer is a device designed to optimize irrigation management in gardens and green spaces. With a series of technical features that allow precise customization, this programmer is an effective tool for those looking for rigorous control over the water supply to their plants.

- 10 preset irrigation programs to adapt to different irrigation needs.
- 11 irrigation frequency options, allowing you to adjust the regularity of the water supply.
- Adjustable irrigation duration from 1 to 120 minutes, allowing detailed control over hydration time.
- Programmable irrigation frequency from every 1 hour to every 7 days, facilitating long-term planning.
- Operating working pressure ranging from 0.5 to 12 bars, ensuring wide compatibility with different irrigation systems.
- Works with a 9V alkaline battery (not included), ensuring simple installation and no electrical connection required.
