Product sheet

STANDARD TIN PH1x25 short guide tip 1/4" Phillips

Brand: Witte

Reference: TUR 27320

Witte's Phillips STANDARD TIN tip, model PH1x25 with 1/4" guide, offers high durability in metal threaded metric screws. Its titanium nitride coating reaches a Wickers hardness of 2800 HV, tripling resistance against premature wear and abrasion breakage in applications with high torque.

Description

The Witte PH1x25 screw tip is a precision tool designed for applications that require a high torque, ensuring a long duration even in demanding working conditions.

Technical characteristics

- Tip type: Phillips (PH)
- Metric size: 1/4"
- Total length: 25 mm
- Coating: Titanium nitrate (TIN)
- Hardness Wickers: 2800 HV
- Comparison of hardness: 3 times harder than an extra-tip
- Coating function: Prevents premature wear and abrasion

Thanks to its titanium nitride coating, this short guide offers superior resistance to abrasion, ensuring optimum performance when working with metal threaded metric screws.

Specifications

EAN	4003955317298
