Description

The Ruko-272140 is a machine tap specifically designed for creating through threads in a variety of soft materials. Manufactured with a reinforced shank, this tap ensures high durability and strength during use. Its design allows for single-step threading, optimizing the machining process and improving work efficiency. This product is ideal for applications in aluminum, aluminum alloys, bronze, copper, nickel, and plastics, offering precise and high-quality results.

- **Type:** Machine tap M DIN 376 HSS
- **Thread:** M14, metric DIN ISO 13
- **Tolerance:** ISO 2/6H
- **Surface:** Bright
- **Cut:** Right-handed
- **Shank:** Reinforced for added strength
- **Applications:** Aluminum, aluminum alloys, bronze, copper, nickel, and plastics
- **Process:** 1-step tapping
- **Packaging:** Individual plastic box with hanger
- **Quantity:** 1 piece

This tap is an essential tool for professionals seeking precision and reliability in their machining projects.

Specifications

High	2,50
Width	7,00
EAN	4007140128904
Manufacturer	Ruko

Weight (kg)	0,0800
Depth	15,00
