Description

The Brennenstuhl Ecolor power strip is an electrical connection solution that combines functionality and modern design. With a black and white finish, this power strip stands out for its elegant and compact aesthetic, ideal for any environment, whether at home or in the office. Its polished surface not only adds a touch of sophistication but also facilitates cleaning and maintenance.

Equipped with a safety ON/OFF switch with indicator light, this device allows for easy and safe power control, ensuring that connected appliances are always under supervision. The 45° angled sockets and 90° plug type ensure efficient and hassle-free connections, optimizing space and preventing cable clutter.

The Ecolor power strip is made of high-quality plastic and PVC, giving it durability and resistance.

With IP20 protection, it is suitable for indoor use, providing a safe and reliable option for your electrical needs.
