Description

The RED FLUSH PUSHBUTTONS (1NC) are electrical control devices designed for automation and signaling systems. Their flush design allows for aesthetic integration into various surfaces, while their red color provides clear visual identification. These pushbuttons are ideal for use in industrial, commercial, and residential environments where a reliable and durable activation mechanism is required. Manufactured with high-quality materials, it guarantees optimal performance and a long service life, even under intensive use.

- **Contact Type:** 1NC (Normally Closed)
- **Color:** Red
- **Design:** Flush mount, for discreet installation
- **Material:** Impact-resistant plastic
- **Dimensions:** Compact, ideal for confined spaces
- **Operating Temperature:** -10°C to 55°C
- **Protection Rating:** IP65, dust and water resistant
- **Connection:** Easily accessible terminals
- **Certifications:** Complies with international safety standards
- **Applications:** Control systems, alarms, machinery
