Description

The Oryx Meat Thermometer with Probe is an essential tool for any cooking enthusiast seeking perfect results. Made of high-quality stainless steel, this thermometer is resistant up to 120°C, making it a reliable tool for measuring the internal temperature of different types of meat. Its 55 mm diameter design includes animal icons that indicate the ideal cooking range, making it easy to achieve the exact doneness you desire for every dish.

The thermometer probe allows for precise measurement when inserted into the meat, ensuring that every bite is cooked to perfection.

To ensure proper functioning, it is recommended to thoroughly wash the thermometer before each use.
