Description

Permanent Markerpen marker with solvent-based ink, designed for writing on non-porous and water-resistant surfaces. Its professional formula provides clear and long-lasting marks on various materials like metal, plastic, and glass.

Technical Specifications

- Content: 10 ml
- Color: Red

The durable tip ensures smooth and precise writing, while the ink remains visible even after exposure to moisture. It is suitable for industrial applications where durability and clarity in marking are required.

It is recommended for labeling, equipment identification, metal surface marking, and other environments that demand permanent and legible writing over time. Can be applied directly onto surfaces without additional tools.

Specifications

Colour	Red
EAN	5412386036019
