Description

The Nectar electric convector is a fast and efficient heating device designed for small or medium-sized spaces. Its instant convection technology distributes warm air uniformly and silently, Made with high-quality materials such as metal and polycarbonate, it offers durability and resistance for daily use.

Technical Specifications

- Power: 2000 watts
- Temperature Regulation: Adjustable thermostat in three levels (750 W, 1250 W, 2000 W)
- Protection: Automatic overheating protection
- Dimensions: 32 x 54 x 20 cm
- Material: Metal and polycarbonate
- Includes two stable feet and handle for easy transport

Its compact and modern design makes it suitable for both residential and commercial use. It is especially useful in rooms with low thermal demand, where an efficient heater without noise or complexity is sought.

Installation is simple: just place it on a flat surface and connect it to an electrical outlet. Its lightweight design and handle make it easy to move between different spaces, allowing it to be easily adapted to various heating needs.

Specifications

Width	54
Colour	White
EAN	8435684370774
Manufacturer	FABRILAMP
Long	32x54x20
Material	Metal y policarbonato
Measures	32 x 54 x 20
Protection	Sobrecalentamiento automático
