Description

Simon 82 Concept | Frame 3 elements white matt SIMON 8200637-090 Simon 82 Concept, the essence of design Simon 82 Concept is a series of electrical mechanisms with straight lines, with easy integration into any environment, and with special finishes very adapted to our time. It is one of the electrical mechanisms series by Simon more minimalist. A collection specially designed to blend in with an environment. The Simon 82 Concept frameworks The main characteristics of the Simon 82 Concept frameworks are: Minimal lines, integrating the key and the frame all in one The flat frame allows a maximum fit to the environment so that it goes unnoticed The minimal curvature of the frames softens the design A relief inside the frame gives depth and highlights the function of the key The slight step that is part of the frame provides a feeling of minimum thickness Available colors of the Simon 82 Concept frames The frames are available in the following colors: aluminum matt white champagne gray matt black < li> gold titanium Number of elements and availability Simon 82 Concept The frames are available from one to 4 elements: 1 element: 93x93 mm 2 elements: 93x164 mm < span> 3 elements: 93x235 mm 4 elements: 93x306 mm This range of Simon frames allows vertical and horizontal installation. In this way, the Simon 82 Concept electrical mechanisms can be installed horizontally and vertically without having to buy different references. Very important for the installation of Simon 82 Concept This series of electrical mechanisms , like other series of Simon , share the same mechanism, so if you already have a series from the following list, it will not be necessary to buy the electrical mechanism.
