Description

The SOLTER electrode clamp, model REF.06669, is a welding accessory designed to hold electrodes during the working process. Its 300A rated capacity allows its use in applications that require a high current, facilitating the safe handling of the electrode without the need for direct contact with the hands.

Technical characteristics

- Mark: SOLTER
- Power capacity: 300A
- Type: Electrode clipper
- Status: Closed
- Reference: REF.06669

Due to its closed design and high capacity, this device offers a robust solution for workshop environments where stability and efficient handling of welding material is required.

Specifications

EAN	8427338066690
Manufacturer	SOLTER
