Description

The Angular Outdoor Broom Model 03042 MAYA is a professional equipment recommended for use, designed with a robust and efficient structure for cleaning exterior surfaces.

Technical characteristics

- Measurements: 350x240x40mm
- Design angle: 17o
- Fibre material: Polypropylene grey
- Fiber thickness: 0.90 mm
- Mango status: No handle

Its 17° angle allows optimal access to corners and edges, achieving complete cleaning in difficult areas. Polypropylene fibers are hard and designed to effectively remove embedded dirt.

To preserve its shape and functionality, it is recommended to avoid supporting it directly on the ground when it is not in use; hanging it or storing it on a suitable support will prolong the service life of its fibers.
