German socket 16A + titanium cover SIMON
8200432-096

Series of mechanisms Simon 82 Concept.

[View product online](#)**Description**

Schuko 16A socket base + SIMON 8200432-096 titanium cover

The Simon 82 Concept series of mechanisms allows the mechanism and the cover to be acquired together. It is important to note that, in the same way, the mechanism and the cover can be purchased separately.

If you have the Simon 31, 75, 82 or 88 series of mechanisms, it is not necessary to purchase the mechanism, so you will only have to add the key.
