Black Matte Frame for 2 Elements with Simon 360 Aligner

Brand: SIMON

Reference: SIMON 36000620-098

Frame for two elements in matt black finish of the Simon 360 series, made of urea thermostable with high thermal resistance and dimensional stability. It includes integrated alignment compatible with S75 platform that guarantees visual continuity, uniformity in holes and flatness on the wall for clean installations.

Description

The frame for 2 elements of the Simon 360 series, in matt black finish, is an essential component for electrical installations that requires aesthetics and functionality. Its integrated design with alignment ensures a uniform and clean appearance on recessed walls.

Technical characteristics

- Series: Simon 360
- Material: Steel, Urea Thermostable
- Finished: Anti-reflection matte black
- Dimensions: 81 x 152 x 19.9 mm
- Type of installation: Suitable for recessing (Horizontal/Vertical)
- Protection: IP20
- Working temperature: 5 - 40 oC
- Guarantee: 3 years
- Regulations: Dir. 2014/35/EU LVD ?? EN 60669-1:2018
- Compatibility: Caps Simon 360 and platform S75
- Units per pack: 10

Thanks to its high-strength thermostable material, this frame offers dimensional stability and prolonged durability against conventional plastics. The integrated aligner ensures the flatness on the wall and the

correct operation of the pulsating system in multiple installations or with Clean Schuko.

Universal assembly facilitates a clean and high visual quality installation, maintaining uniformity in adjacent holes without the need for additional complex adjustments.

Specifications

Colour	Matt black
EAN	8421053437773
Material	Steel
# Elements	2 elementos
Protection	IP20
Piece type	Frames
Series	Simon 360
