Product sheet

Black Matte Frame for 4 Elements with Simon 360 Aligner

Brand: SIMON

Reference: SIMON 36000640-098

Frame for four Simon 360 series elements in matt black finish with integrated aligner. Made of urea thermostable material, it offers high thermal resistance and dimensional stability. Its anti-reflection design reduces maintenance by minimizing footprints and brightness, ensuring a clean and uniform installation in electrical environments.

Description

The Simon 360 series 4-element frame in matt black finish is an essential component for electrical installations, designed to ensure superior aesthetic and functional integration. Its matte surface reduces light reflections and minimizes maintenance by preventing the accumulation of footprints.

Technical characteristics

- Series: Simon 360
- Material: Heat stable urea steel
- Finished: Anti-reflection matte black
- Protection: IP20
- Dimensions: 81 x 294 x 19.9 mm
- Orientation: Horizontal and Vertical
- Type of installation: Suitable for recessing
- Assembly: Universal
- Working temperature: 5 - 40 oC
- Guarantee: 3 years
- Includes S75 compatible platform aligner

The urea thermostable material offers high thermal resistance and dimensional stability, ensuring a long

service life. The integrated aligner provides uniformity in holes and flatness on the wall, facilitating clean installations with multiple systems or Clean Schuko.

Specifications

Colour	Matt black
EAN	8421053437896
Material	Steel
# Elements	4 elementos
Protection	IP20
Piece type	Frames
Series	Simon 360
