Product sheet

RTV-SAT modular intermediate socket Simon 75 SIMON 75467-69

Brand: SIMON

Reference: SIMON 75467-69

Modular R-TV + SAT signal socket intermediate. There are many ways to receive the television signal on the multiple devices that exist today. Regardless of the system we choose, the important thing is to receive a perfect television signal that does not have the uncomfortable signal cuts. To fulfill this objective, we have the modular signal socket for the R-TV + SAT formats intermediate of the Simon 75 series. Its characteristics make it one of the most complete signal sockets in the sector: screw terminal connection, insertion operation, based on 9.5mm IEC connectors. Ø, 6 to 8mm cable section and 7mm bare cable. It has two IEC type connections and is a mechanism developed for a universal box made of the highest quality metal components with halogen-free thermoplastic insulation. Finally, it is a socket compatible with DTT (Digital Terrestrial Television) and has different combinations for cable layout.
