Simon 82 key with graphite light display SIMON 8200016-038

Brand: SIMON

Reference: SIMON 8200016-038

Individual key with visor and light engraving for mechanisms S. 77 graphite Simon 82. An element that must be present in any electrical system is security. Thanks to this feature, whose presence must be non-negotiable among the characteristics of these mechanisms, we can ensure that the entire system works correctly, thereby reducing the risk of suffering any type of accident with negative consequences in the rooms and apartments of homes and companies. This quality is present in the individual key with display for Simon 77 series mechanisms in graphite from the Simon 82 series. Its characteristics are: dimensions of 55x55mm, suitable for surface and flush mounting, made with thermoplastic components and includes light engraving and function signaling. In addition, this piece allows you to choose a frame with the same base color as the key selected from the six finishes available in the catalog. Its value for money? Unmatched by other similar products made by competing companies.
