Simon 82 key with aluminum display SIMON 8200011-033

Brand: SIMON

Reference: SIMON 8200011-033

Individual key with display for mechanisms S. 77 aluminum Simon 82. The different textures, pure metals, brushed, polished, litmus effects, translucent or grainy textures, give the Simon 82 series a great variety of finishes that allow a multitude of combinations. The individual key with viewfinder for mechanisms S. 77 in aluminum included in this range is a great alternative since, in addition to its modern aesthetics, it also has all the characteristics and functionalities of this Simon series. The key that is placed on the structure of any plug is also an important part for the correct operation of any electrical system. This product, which is effective, attractive and economical, is available in six different finishes, but we recommend choosing the frame with the same key socket color. With the best price and maximum quality, this key has been manufactured with galvanized thermoplastic components and is suitable for surface and flush mounting.
