Neutral push button Simon 82 graphite SIMON 82013-38

Brand: SIMON

Reference: SIMON 82013-38

Individual key that can be combined with the 82972 and 82982 graphite Simon 82 visors. This individual key is available with an option that can be combined with the 82972 and 92892 graphite visors and the Simon 82 series. You can find it in the "keys and caps" category. By belonging to the Simon 82 range you have up to six finishes available to combine the piece as you want, from Simon the recommendation is that you choose the same color of the frame as the selected key socket to get the most out of the element in your home. Its dimensions are 55x55mm, to take it into account when installing. The temperature range at which it works is from 5°C to 40°C thanks to the fact that it is manufactured with metallic components of thermoplastic insulation that allow its maximum performance, it is also suitable for surface or flush mounting. For its maintenance it will be worth with a soft and clean cloth without any type of liquid with which you can leave the element as new.
