### Key for switch + bell button Simon 75 ivory SIMON 75027-31

Brand: SIMON

Reference: SIMON 75027-31

Double key with bell engraving for group 1 switch and 1 Simon 75 ivory bell button. The double key with bell engraving for group 1 and 1 ivory bell button Simon 75 has 6 different finishes, it is recommended to choose a frame with the same color of the selected key. It can be installed in 2 different ways, surface or recessed. The most common temperature ranges of the double key with engraved bell is from 5 to 40° with a limit that goes from -25 to 50°. This type of key applies the UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 regulations. The main manufacturing material is thermoset with a plastic ivory finish. The key with bell engraving is a double version, it does not contain modules, but an element. This model includes engraved bell but does not include a signaling function. For the correct maintenance of the double group key with 1 switch and 1 button, it is recommended to use a soft cloth slightly moistened in soapy water to clean it properly.
