Description

The WITTRON Witte-89751 precision Torx screwdriver is a tool designed to meet the needs of the most delicate and demanding jobs. Its design allows easy access to deep screws, making it an ideal choice for assembly and repair tasks in confined spaces. Thanks to its ergonomic, two-component, non-slip handle, the user can work in various comfortable positions, ensuring a secure grip and greater precision with every turn.

The shaft is made of special high-alloy steel, ensuring exceptional durability and wear resistance. Its matte chrome finish not only provides a professional look but also helps prevent corrosion.

The black tip is designed to provide a perfect fit on Torx screws, minimizing the risk of slippage and damage to the screw heads.
