Description

The WADFOW hexagonal SDS pointer, coded WGZ3204, is an essential accessory for electroportiles designed for drilling and hammering work in construction environments. Its robust construction ensures reliable performance in industrial applications.

Technical characteristics

- Cincel hexagonal
- Measure: 28 x 520 mm
- Point in point
- Wear resistant
- High hardness
- Long service life
- Presentation in case

Given its high hardness profile and wear resistance, this tool is suitable for drilling in hard materials such as concrete, brick and cement, ensuring an efficient and prolonged operation.

Specifications

EAN	6937541231539
Material	Steel
