Product sheet

Cover + electronic regulator button Simon 82 graphite SIMON 82035-38

Brand: SIMON

Reference: SIMON 82035-38

Plate for electronic rotary voltage regulator up to 1000W/VA graphite Simon 82. Available in three finishes, so it is recommended to choose the frame with the same base color as the selected part, we find the Plate for the electronic rotary voltage regulator up to 1000W/VA in graphite from the Simon 82 series. Its advantages include its ease of surface installation and flush mounting and its adaptation to the UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 standard, which translates in a security in one hundred percent of the situations. The resistance to the passage of time also stands out among its characteristics as it has been made with thermoplastic components that allow it to have a recommended temperature range of 5 to 40º C, but this plate can perfectly withstand temperatures from -25º to 50º C. You can clean with a soft damp cloth and have universal dimensions of 55x55mm. Its price? The best in the whole sector.
