Simon 82 aluminum code card switch cover SIMON 82078-63

Brand: SIMON

Reference: SIMON 82078-63

Cover with display for Simon 82 aluminum mechanical or electronic card switch. With aluminum finishes, this cover with display for card switch is compatible for both the mechanical and electronic models. In addition, you will also find it available in 6 different finishes. It is appropriate that the chosen frame matches the hue of the socket of the selected key. Its installation in our home, premises or office is simple, by simply embedding or placing the cover on a surface. Measuring 55x55mm, the piece is made of galvanized thermoplastic materials. The materials of its manufacture, in addition to complying with the regulations, provide the piece with great resistance. For a correct cleaning, the best thing is to pass a soft cloth over the lid, avoiding any abrasive product that contains chlorine.
