Coded card switch cover Simon 82 white SIMON 82078-60

Brand: SIMON

Reference: SIMON 82078-60

Cover with display for Simon 82 white mechanical or electronic card switch. Individual cover with display for Simon 82 series mechanical or electronic card switch in white. Dimensions 55x55mm. Made of thermoplastic material. For its correct installation it is necessary to use a universal embedding box or, in its absence, a surface plinth. Does not include engraving. Recommendations for proper maintenance: clean with a soft cloth slightly impregnated in soapy water. Do not use cloths or abrasive cleaners (or that contain chlorine). Simon Collection 82 stands out for its minimalist design, noble finishes and extensive range of textures. Balance and simplicity adapted to the latest trends in the market. Pure, simple lines and an extra-flat profile draw the essence of a new concept. It is recommended to choose a frame with the same socket color of the selected key. The Simon 82 keys and frames are compatible with the Simon 75 components.
