British plug cover Simon 82 with graphite switch SIMON 8200046-038

Brand: SIMON

Reference: SIMON 8200046-038

Cover with safety device for the British socket outlet with graphite switch Simon 82. With switch, and to be used in the British socket base, this individual cover belonging to the Simon 82 series is in graphite color. Does not include engraving. It has dimensions of 55x55mm and for its correct installation it is necessary to use a universal embedding box or, if it is not available, a surface socket. It is made of thermoplastic material. If what we want is for the piece to be kept in the best conditions over time, we recommend using a soft cloth slightly moistened in water with a few drops of soap for cleaning. Avoid, yes, cleaners that contain chlorine and are aggressive for this material. The Simon 82 series stands out for its minimalist design, incorporating an extensive range of textures and noble finishes. Balance and simplicity adapted to current trends. Slimline profile, simple lines and a new design concept.
