Description

The Sola-PF40 spirit level is an essential tool for professionals who require precision in their leveling work. Its rectangular body, made of special injection-molded plastic, guarantees exceptional durability, making it virtually unbreakable and non-deformable. This level is unaffected by temperature variations and water exposure, making it an ideal choice for use in diverse environmental conditions.

The Sola-PF40 features two bubbles: a horizontal one with a magnifying lens for easy reading and a vertical one, allowing for versatility in measuring different surfaces.

Its maximum tolerance of 1.0 mm/m (equivalent to 0.057º) ensures remarkable accuracy with every use.

- Dimensions: 400 mm in length
- Injected plastic body
- Virtually unbreakable
- Unaffected by temperature changes
- Water resistant
- Two bubbles: horizontal (with magnifying glass) and vertical
- Maximum tolerance: 1.0 mm/m (0.057º)
- Lightweight and easy to handle
- Ergonomic design for a better grip
- Ideal for construction and DIY projects

The Sola-PF40 is a reliable tool that combines strength and precision, suitable for any professional

seeking high-quality results in their projects.

Specifications

High	2,50
Width	5,00
EAN	9002719037897
Manufacturer	Sola
Material	Plástico
Weight (kg)	0,2400
Depth	40,00
