

## Product sheet

## Simon 82 diffuser cover transparent SIMON 82065-31

Brand: SIMON

Reference: SIMON 82065-31

Translucent diffuser cap for Simon 82 light indicator. Translucent diffuser cap for light indicator included in the Simon 82 series. It is an article available in 3 finishes that adapt to the needs of users. For a better effect, it is advisable to choose a frame that is the same color as the base of the chosen cover. The lid comes in one-unit packs and has dimensions of 55x55mm, ideal measurements to install anywhere. In addition, the product is suitable for surface and flush mounting and its installation can be done in a few minutes without any difficulty. It is made of thermoplastic, in compliance with regulations. One of its most remarkable characteristics is its enormous resistance to extreme temperatures. In fact, it can withstand between -25 and 50º, although ideally it should be installed at a temperature of between 5 and 40º.
