Simon 27 PLAY bracket with blue led for pilot light SIMON 2700802-064

Brand: SIMON

Reference: SIMON 2700802-064

Support with blue led, replacement for mechanisms with light or pilot Simon 27 Play. It is a support with blue LEDs, a replacement for mechanisms with light or pilot that is part of the Simon 27 Play series. It can be installed simply and quickly thanks to the insertion function of this part, a system that allows to reduce times significantly. The stand comes in individual packs and has been manufactured in compliance with the regulations. The quality of its materials allows it to be installed in all kinds of environments, as it stands out for its extraordinary thermal resistance. The indicator has a consumption of 0.55 mA. To keep it in optimal condition, remember to clean the device with a soft, dry cloth and avoid abrasive products containing chlorine. It does not have any kind of engraving. The Simon 27 Play collection brings a different concept that allows redecorating spaces through fully customizable and functional mechanisms.
