16A K45 single-pole pushbutton with pilot light 1 display mechanism graphite gray SIMON K114 / 14

Brand: SIMON

Reference: SIMON K114/14

Key with display for button with light function of 1 element graphite Simon K45. Beacon your electrical mechanism in low light situations with the button with display for push button with built-in light function from the Simon K45 collection. With graphite finishes and a compact dimension of 45x45mm and 10mm depth, the total integration of the set in all types of spaces is guaranteed, providing a current and simple style suitable for all types of environments and decorative styles. It is designed for both recessed and surface installation, which maximizes the versatility of the product allowing it to be adapted to the specific needs of each space. Manufactured with halogen-free thermoplastic materials, it prevents the spread of flame and smoke toxicity in case of fire, and can reach maximum temperatures of more than 60 °C.
