Product sheet

Single-pole push button 16A K45 SIMON K303

Brand: SIMON

Reference: SIMON K303

16A 250V push button with Simon K45 fast terminal connection system. Half element and 1 module push button (6 Amps and 250 Volts) with fast terminal connection system from the Simon K45 series. Its reference code is K303. This series, the K45, incorporates different products for connectivity in workplaces, such as ofiblocks, teleblocks, anti-vandal columns and turrets, etc. It is not allowed to combine, in this case, 2 control mechanisms with a narrow key on an adapter plate from the Simon 500 Cima series to the Simon K45. It does not have a signaling function. Its dimensions are 22x45mm, the wire stripping is 11 millimeters and the admitted cable section is up to 1.5 millimeters. This product, like all of Simon's, is made of the best materials (metal components with thermoplastic insulation) and each and every one of the products passes an exhaustive quality control, something that is essential for the brand.
