Timed touch button Simon 75 SIMON 75325-39

Brand: SIMON

Reference: SIMON 75325-39

750 W/VA timed push button. Timed 750 W/VA push button offering a screw terminal connection system. It has an adjustable timer function from 4 seconds to 10 minutes to adapt to the specific needs of each user. The mechanism can be combined with mechanical auxiliary push buttons. It is suitable for surface and flush mounting, offering a very simple installation that does not require advanced technical knowledge. The button is equipped with electronic components with halogen-free thermoplastic insulation to ensure the safety of all members of the home. The mechanism is included in the Simon 75 series and has been manufactured in strict compliance with the regulations. The collection combines design, technology and efficiency, qualities that result in devices with displays that allow you to keep track of various functions related to timing and clocks such as alarm clocks, astronomical hours, programming the blinds and a long etcetera.
