Description

The **Kukko-30-20+C** is a quick-adjusting puller that celebrates Kukko's centenary, designed to offer an exceptional user experience for extraction tasks. Measuring **200x150 mm**, this puller stands out for its innovative manual knurled adjustment system, which allows for quick and efficient loosening, positioning, and tightening of the legs without the need for additional tools. This feature not only optimizes working time but also provides greater user comfort.

The Kukko-30-20+C's structure ensures maximum stability of the sliding leg, resulting in superior performance and greater safety during use.

Furthermore, its new optimized guide rail geometry facilitates smooth movement and secure leg attachment, ensuring fluid and precise operation.

- Dimensions: 200x150 mm
- Manual adjustment knobs for quick adjustment
- No wrench required for leg adjustment
- Maximum stability on the sliding part
- Optimized geometry for easy movement
- Sturdy leg attachment
- Robust and durable design
- Ideal for professional and DIY applications
- Manufactured by Kukko, a brand with over 100 years of experience
- Versatile use in different types of extraction

Specifications

EAN	4021176039812
Manufacturer	Kukko
Weight (kg)	4,5000
