Plate K45 half mechanism blind graphite gray SIMON K105 / 14

Brand: SIMON

Reference: SIMON K105/14

Blind cover for 1 graphite element Simon K45. The Simon K45 series offers connectivity solutions, both for multimedia devices and for electrical energy, the products in this range are specially oriented to integrate both into furniture and on the floor of workspaces or public places. With measurements of 45x45x8.5 millimeters we find this blind cover for 1 element finished in graphite from the Simon K45 series, in its individual half-module version it is a product suitable for both surface and flush mounting. As in all its Simon products, it takes safety very seriously, which is why it manufactures this cover in halogen-free thermoplastic, which guarantees the non-propagation of the flame and the low toxicity of the fumes in case of fire. This piece can also be found in versions of the fourth and a half module. We must avoid cleaning with abrasive products that contain chlorine.
