**Blank K45 plate snow white
SIMON K17 / 9**

Brand: SIMON

Reference: SIMON K17/9

Blind cover for 1 element white Simon K45. Halogen-free thermoplastic is the material chosen for the manufacture of this 1-element blank cover finished in white from the Simon K45 series, this material provides added security to the installation as it prevents the spread of fire in case of fire and it guarantees low toxicity in case of fumes, it is also very resistant to temperature changes and shock resulting from use. It is a cover in its individual version of half element suitable for surface and flush mounting. It has dimensions of 45x45x8.5 millimeters. Its maintenance is very simple, we will only need a soft and dry cloth to maintain it like the first day. When talking about Simon's K 45 series we must highlight its great connective versatility with maximum compatibility with all connectors on the market. A series created for its perfect integration in workspaces or public places.
